

React JS Developer (1–2 Years Experience)

We are looking for a talented and enthusiastic React JS Developer with 1–2 years of hands-on experience in building modern, scalable, and responsive web applications. The ideal candidate should have strong expertise in React.js, JavaScript, API integration, UI development, and state management, along with the ability to convert business requirements and UI designs into high-quality production-ready applications.

Responsibilities:

Develop, maintain, and enhance web applications using React.js.

Build reusable, scalable, and maintainable UI components.

Integrate REST APIs and third-party services.

Convert Figma/UI designs into responsive and pixel-perfect web pages.

Implement authentication, authorization, and role-based access controls.

Optimize application performance, loading speed, and user experience.

Collaborate with UI/UX designers, backend developers, and product teams.

Debug, troubleshoot, and resolve frontend issues.

Participate in code reviews and follow coding standards and best practices.

Ensure cross-browser compatibility and mobile responsiveness.

Required Skills & Technologies:

React.js

JavaScript (ES6+)

TypeScript (Preferred)

HTML5, CSS3

Bootstrap, Tailwind CSS, Material UI (MUI)

React Hooks

Redux Toolkit / Context API

REST API Integration

Axios / Fetch API

JWT Authentication

Git, GitHub/GitLab

NPM/Yarn

Vite

Responsive Web Design

Cross-Browser Compatibility

Hands-On Experience Required:

Building complete React.js applications from scratch.

Creating reusable components and custom hooks.

API integration and data management.

Authentication and authorization implementation.

Dashboard and Admin Panel development.

Dynamic forms, validation, search, filters, and pagination.

File upload/download functionality.

State management using Redux Toolkit.

Responsive UI development for desktop, tablet, and mobile.

Performance optimization and debugging.

Working with Git version control in team environments.

Preferred Skills:

Next.js

Progressive Web Apps (PWA)

React Query / TanStack Query

Framer Motion

Basic Node.js knowledge

Understanding of ASP.NET Core APIs

Preferred Project Experience:

CRM Applications

ERP Applications

Insurance Platforms

Admin Dashboards

Customer Portals

SaaS Products

E-commerce Applications

Progressive Web Applications (PWA)

Qualifications:

Bachelor's degree in Computer Science, IT, or related field.

1–2 years of professional experience in React.js development.

Strong problem-solving and communication skills.

Ability to work independently and within a team.

 Location: Pune / Hybrid / Remote

 Experience: 1–2 Years

 Employment Type: Full-Time

Interested candidates can share their Resume, GitHub Profile, Portfolio (if available), Current CTC, Expected CTC, and Notice Period.
